The `fontawesome6` Package*

Font Awesome†(The font)   Daniel Nagel‡(The LaTeX package)

April 22, 2025

This package provides LaTeX support for Font Awesome 6 icons.

Special thanks to Marcel Krüger for the original `fontawesome5` package (`https://ctan.org/pkg/fontawesome5`), upon which this package is based.

Usage

To use Font Awesome 6 icons in your document, load the package with:

```
\usepackage{fontawesome6}
```

Optionally, you can add the `fixed` option to enable fixed-width icons:

```
\usepackage[fixed]{fontawesome6}
```

Each icon is available as a macro, using the official icon name in CamelCase with the prefix `\fa`.

For example, to use the `hand-point-up` icon, write `\faHandPointUp`.

An optional argument allows you to select the style (`solid` or `regular`). The default style is `solid`, but you can change it globally with `\faStyle{...}` or by setting the option `style=...`.

Alternatively, you can access any icon by its official name using `\faIcon{icon-name}` or `\faIcon[style]{icon-name}`.

A comprehensive list of all included icons and their corresponding commands is provided at the end of this document.

Example

```
...
\usepackage{fontawesome6}
...
\begin{document}
```

```
...
A simple icon: \faHandPointUp\\
Multiple versions of the file icon:
  \faFile~
  \faFile[solid]~
  \faFile[regular]~.\\
Alternative syntax:
  \faIcon{file}~
  \faIcon[solid]{file}~
  \faIcon[regular]{file}~.
...
\end{document}
```

A simple icon: ☝
Multiple versions of the file icon: 📄 📄 🗋.
Alternative syntax: 📄 📄 🗋.

Font Awesome Pro

Font Awesome 6 is available in both Free and Pro versions. By default, this package uses the Free version. If you have a Pro license and have installed the Font Awesome 6 Pro desktop fonts in your system font path, you can enable Pro support by loading the package with the [pro] option:

```
\usepackage[pro]{fontawesome6}
```

With Pro enabled, the following additional styles are available: `solid`, `regular`, `light`, `thin`, `duotone-solid`, `duotone-regular`, `duotone-light`, `duotone-thin`, `sharp-solid`, `sharp-regular`, `sharp-light`, `sharp-thin`, `sharp-duotone-solid`, `sharp-duotone-regular`, `sharp-duotone-light`, and `sharp-duotone-thin`.

For duotone icons, you can set the secondary color using \faDuotoneSetSecondary:

```
% Remember to load xcolor
% Set secondary color to green
\faDuotoneSetSecondary{\color{green}}
```

Pro features are supported only with X͟ΗLATEX and LuaLATEX.

Updates

This package corresponds to Font Awesome 6.7.2.

If a newer version is available on the Font Awesome website, check for updates at `https://ctan.org/pkg/fontawesome6`. If the latest version is not yet on CTAN, you may contact `tex@2krueger.de`.

If you use X͟ΗLATEX or LuaLATEX, you can also manually download the new Desktop Fonts from `https://fontawesome.com` and place them in your TEX tree. Save them

with the following filenames:
```
FontAwesome6Brands-Regular-400.otf
FontAwesome6Free-Regular-400.otf
FontAwesome6Free-Solid-900.otf
```
The package will then automatically use the new version.

Bugs and Feedback

For bug reports or feature requests, please open an issue at github.com/braniii/fontawesome6.

Full icon list for FontAwesome 6 Free

All icons marked with ™ are brand icons.
